Abstract

a new born female neonate born from a first cousin marriage after lscs as soon as female baby was taen out of uterus handed to nurse the nurse cried that the babied both eyes are not normal I saw the baby at 4 hours of birth I examined the baby by putting the pediatric speculum I diagnosed her a case of bil cong corneal dystrophy at the same time she had the rare association of ant stphyloma left eye there was no other con anomies like 1 sclero cornea 2 hurlers disease 3 peters corneal analoly 4 limbal dermoid no k c sicca no deafness after 224 hours iop by ton open was normal scan ultrasound revealed normal retina key words k c s medullated optic nerve fibers deafness

Introduction

Corneal dystrophy is defined as lesions of cornea of an unknown ate logy which may manifest either at birth or at 1st on 2nd decade of life may remain stationary or progressive have got a strong hero familial tendency my case was first cousin marriage delivered child had bil central symmetrical corneal opacity with absence of deep vascularisation tyand impaired cor sensations diagnostic of cor dystrophy what was a rare thin was left eye association of ant staphloma [1,2].

Case Report and Results

At age of 3 months eye p keratoplaty was done and at 3 years of age cosmotoc keratoprosthesis was done chold is now 5 years old is going to cruth very intelligent can see very well with eye.

Discussion

Bil cong cor dystrophy is a rare disease more rare is the association of other con anomolies omen can have1 cong glaucoma association in other eye the other associations are 2 ant staphyloma 3 keratoconus 4 cong absence of dest membrane 5 ched 6 deafness cogans syndrome 7kcs 8 medulated optic nerve fibers [3-7].

Conclusion

Through bil cong cor dust is rare more is associated other cong associated lesions as was in my case ant staphloma.

References 1 b j o 2 a j o 3 japanese j oph 4 omany j oph I found only 2 case where bil cong corn dystrophy was associated with other con anomolies in r p center a I am bil cong cor dust was associated with deafness 2 in k k eyes hospital riyadh k s a bil cong cor dyst was associates with cong glaucoma probably my case may be 3rd sor 4th in literature worth reporting.
