Abstract

Now a days we see that many people suffering from diabetes pancreatic cancer and other stomach problems .many children born without pancreas and many endocrine glands, Now a day's many new problems arise . The main cause of this problem is the mutation of food substance, mutation of cells and abnormality of blood. As we see that the blood carries many waste products like more nicotine, dust and other particles also, and some time we find in the blood eosinophils. uric acid blood cholesterol and many needed substance increased in our body and produce disturbance, and body starts the abnormal functions and by this reason mechanism of formations of cells also disturb and we found many kind of tumor, cysts and mole formed in the body, By medicine or surgery we can correct or remove it. But problems arise again.

In our body many substance produce by our endocrine glands If we will take example of bile juice it is produce by our liver and collect in gall bladder and it secretes the juice in the duodenum and after digest the food it's also absorb in the small intestine And mixed in the blood and it is also written that bile salt help the pancreas to produce more insulin. But we know that in jaundice bile salt and serum bilirubin increase in the body. We can take bile juice by much type of shouldered animals, birds and aquatic creature's. My patent no. is 834/kol/2007.

Introduction

Till now there is no medicine to cure diabetes and pancreatic disorders only we are using medicine to control the disease in some extent.

Materials and methods

I read in the physiology book that bile salt increases the function of pancreas and then, I prepare mother tincture of bile juice and given to frog, hen and mouse and found no toxic effect and, I prepare jelly of bile juice and given to who willing to take willingly and they fell energetic.

Result

I start the experiment on this topic. First I eaten the bile juice himself and I found that my hemoglobin increase eosoniphil

decrease and my liver also become some strong. My one sister in law got one daughter and one son. Son is suffering from pancreatic fibrosis and after treatment in Aiims New Delhi he dies. Once I went Delhi in 2007 and given the mother (Ester Joseph) W/o Vincent Prasad New Delhi Bile juice orally and her third daughter born healthy now she is about 8 years old.

Conclusion / Discussion

I request to all scientific organizations and scientific person to experiment on this topic and search relationship between bile salt and pancreatic cancer.
